

State of Wisconsin
Governor Scott Walker

Department of Agriculture, Trade and Consumer Protection

Ben Brancel, Secretary

Wisconsin Weights and Measures Laboratory

TO: Weights and Measures Service Company

FROM: Bureau of Weights and Measures

SUBJECT: Weights and Measures Service Company License Application

You cannot install, service, test or calibrate weights and measures without a current annual license from the Wisconsin Department of Agriculture, Trade and Consumer Protection (WDATCP).

In addition, service technician certification is required every 5 years for individuals who:

1. Test, calibrate, service, or seal a weighing and measuring device
2. Remove an official rejection tag, or
3. Verify the correctness of a device.

Businesses that **only** install devices need a service company license, but technician certification is not required.

Fees:

To assist you in determining your correct annual license fee, the following is a summary of the fee structure:

1. If your business ever installs, services, tests, or calibrates devices owned by others on a “for hire” basis, your license fee is \$280 for your first business location, and \$85 for each additional business office, operated by your company. We do not consider a service technicians homes to be a business location.
2. If your business only installs, services, tests, or calibrates weights and measures equipment that you own, your license fee is \$250.
3. If you are late in renewing your license, include a 20% late fee. The 20% late fee is calculated by first adding the basic fee and any additional business location fees if you are a “for hire” business. If you are a “not for hire” business, the late fee is 20% of the basic fee.
4. If you have operated without a license, during the last 12 months, include an additional \$200 surcharge fee.

License Information:

- Application forms must be complete before a license will be issued. Incomplete applications will be returned to you.
- Enter each service technician’s information on page 2. Technicians must be recertified every five years. Details on requirements and scheduling of technician registration exams are at this link: https://datcp.wi.gov/Pages/Programs_Services/WeightsAndMeasuresServiceCompaniesTechnicians.aspx. The exam fee is \$30.
- You will receive **one** license that identifies all of your business locations.

An equal opportunity employer

- Your testing standards must be calibrated at least once every two years by a metrology laboratory that is certified by the NIST (National Institute of Standards and Technology). Vehicle scale test carts, however, require more frequent calibration, and must be tested annually.

Enclose the most recent certificates of calibration for all your standards with your application. Labs certified as traceable to NIST standards can be found at these links:

State Labs with certificates of traceability:

<http://ts.nist.gov/WeightsAndMeasures/upload/Calibration-Scope-Summary-July-2008-Final.pdf>

National Voluntary Laboratory Accreditation Program (NVLAP) certifications:

<http://ts.nist.gov/Standards/scopes/programs.htm>

Service companies are responsible for testing and maintaining weighing and measuring devices according to NIST HB 44 requirements, as well as all state rules and regulations. Wisconsin requires that commercial devices and their components must have NTEP (National Type Evaluation Program) certificates of conformance. When you sell or install a new device in the state, it is recommended that you provide copies of NTEP certificates of conformance to the buyer.

You can access the state Weights and Measures Laws that regulate Service Companies (Wisconsin Statutes ch.98 and Wisconsin Administrative Code ATCP 92) at these links:

<http://docs.legis.wisconsin.gov/statutes/statutes/98/18>

http://docs.legis.wisconsin.gov/code/admin_code/atcp/090/92

If you are installing a Vehicle Scale you are required to fill out the current version of all forms. The forms are found on our website: https://datcp.wi.gov/Pages/Programs_Services/VehicleScales.aspx
